

ERICK OTIENO ONYANGO

IT Consultant | Lead Full-Stack Engineer | Data Science & AI Expert

Kenya | +254 740 922 861 | erickolattiz@gmail.com | github.com/ERIC10000 | erick-otieno-portfolio.vercel.app

PROFESSIONAL SUMMARY

IT Consultant and Lead Full-Stack Engineer with a strong foundation in data science, generative AI, and production-ready software systems. Specializing in driving digital transformation by delivering customized solutions across web, Android, and enterprise business systems. Proven track record of architecting scalable platforms, from high-conversion e-commerce marketplaces and AI-native ERPs to intelligent data pipelines. Actively open to work and ready to perform IT consultancies on data, AI, and software innovation.

TECHNICAL SKILLS

- **Software Engineering & IT Consulting:** Full-Stack Architecture, Web & Android App Development, Enterprise Business Systems, SaaS, API Integration, Technical Consultancy
- **Development Stack:** React.js, Next.js, Android, JavaScript, TypeScript, HTML/CSS, Flask, MySQL
- **Data Science & AI:** Python, Generative AI (OpenAI, Llama, LangChain, Gemini), Predictive Modeling, Machine Learning (Supervised/Unsupervised, Deep Learning), NLP, Computer Vision
- **Data Analytics & BI:** Exploratory Data Analysis (EDA), KPI Analysis, Power BI, Tableau, Stakeholder Reporting
- **Deployment & Infrastructure:** AWS, Git/GitHub, Offline-first syncing, REST APIs

SELECTED PROJECTS & IT CONSULTING (Lead Engineer)

- **Gasiko (B2B SaaS · LPG Business OS):** Architected full-stack infrastructure for real-time cylinder inventory, POS, M-Pesa STK push, and offline-first syncing capabilities.
- **XolaHR (Enterprise HR & Payroll):** Delivered end-to-end IT solution centralizing workforce management with complex payroll automation and HR data analytics.
- **Mega Store Kenya (E-commerce Marketplace):** Led the architecture of a multi-tenant marketplace platform supporting verified seller dashboards, flash sales, and secure M-Pesa checkout.
- **ChopSana ERP (AI-Native ERP):** Provided technical consultancy and full-stack implementation for a biometrically secured school management system with AI-driven reporting.
- **Royalwoods Interiors & City Gadgets Kenya:** Engineered highly performant, conversion-focused Next.js/React web platforms for premium corporate and retail e-commerce clients.

PROFESSIONAL EXPERIENCE

Data Scientist | Generative AI Expert | Software Engineer | Martjal Jenga Labs | Jul 2024 - Present

- Apply Python for data science, data mining, exploratory data analysis, and visualization using Tableau and Power BI.
- Work with supervised and unsupervised machine learning, deep learning, model evaluation, and deployment using AWS and Flask.
- Develop solutions across computer vision, NLP, Generative AI, and LLM workflows using OpenAI, Llama, LangChain, and Gemini.

Freelance Lead Software Engineer & IT Consultant | Self-Employed, Kenya | Feb 2025 - Present

- Design, deploy, and maintain robust business applications across web and mobile platforms.
- Translate complex client requirements into scalable technical architectures, managing database integration, testing, deployment, and ongoing support.
- Build enterprise systems supporting multi-vendor e-commerce, point-of-sale, human resources, predictive analytics, and automated payment workflows.

ICT Officer / IT Support Specialist | Office of the Attorney General, Department of Justice, Kenya | Apr 2024 - Present

- Support business systems and a large user base while maintaining technical records and contributing to the implementation of new systems and technologies.
- Monitor systems and security logs, support incident remediation and vulnerability management, and assist with business continuity activities.

Data Analyst | Ramco Group (ICT Africa), Kenya | Sep 2022 - Feb 2024

- Collected and analyzed business data from multiple sources to support operational reporting and business decision-making.
- Developed recurring KPI reports and dashboards highlighting performance trends and operational insights.

Data Science Job Simulation | British Airways (Forage) | Aug 2025 - Present

- Completed data science simulation on analytics supporting business decision-making, including predictive modeling for customer buying behavior.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science - First Class Honours | St. Paul's University, Kenya | 2017 - 2022

- Dean's List of Honour Award, 2021-2022

Professional Certifications | 365 Data Science | Nov 2025

- Power BI | Introduction to AWS Cloud | Intro to Data Engineering | Intro to AI | Intro to AI Agents and Agentic AI
